IT Support

Management, System Maintenance
Networking & Infrastructure

Hardware & Software Troubleshooting, Workstation

LAN, Network Monitoring

Microsoft Office

Word, Excel, PowerPoint

Design Tools

Other

Programming & Web

Adobe Photoshop, Canva

Machine Learning (TensorFlow), Git, Windows OS

HTML, CSS, JavaScript

WORK EXPERIENCE

IT Support Intern | Calltroix Call Center, Nairobi

Apr 2025 – Aug 2025

- Installed, configured, and maintained network infrastructure including routers and LAN cabling across the office environment.
- Diagnosed and resolved 15+ hardware and network connectivity issues weekly, minimizing staff downtime and improving overall system reliability.
- Provided first-line technical support to staff, troubleshooting OS, software, and peripheral issues with a consistent quick-resolution turnaround.
- Performed routine system monitoring and preventive maintenance, helping maintain network uptime across the call centre floor.
- Assisted in enforcing system security protocols including user access management and software update compliance.

PROJECTS

Student Attachment Matching System | University Project, 2025

- Designed and developed a machine learning-powered web system to match university students with industrial attachment placements based on skills, location, and industry fit.
- Built using Python (TensorFlow) for the ML recommendation engine and HTML/CSS/JavaScript for the frontend interface.
- Reduced the manual effort of placement coordination, improving match accuracy compared to the prior manual process.

EDUCATION

Bachelor of Information Technology | Kibabii University

Sep 2022 – Apr 2026 (Expected)

- Relevant coursework: Software Development, Database Management, Networking, Web Development, Machine Learning.
- Completed Student Attachment Matching System as final-year capstone project using Python and ML.

Kenya Certificate of Secondary Education (KCSE) | St. Peter's Mumias Boys High School Jan 2018 – Jan 2022
